0030

3 MS. HARADEN: Marlys, M-A-R-L-Y-S, last name,
4 Haraden, H-A-R-A-D-E-N.

5 I'm not comfortable with nuclear waste as
6 close as Yucca Mountain. And I think it stands, it
7 could pose a risk to this community and I don't know
8 how it would withstand a major earthquake.

9 DR. KANE: That's why I was asking if you
10 wanted to ask me questions.

11 (There was a discussion off the record.)

12 MS. HARADEN: I'm still not comfortable with
13 it and I would prefer not having that as the dedicated
14 site for all the nuclear waste.

15 Thank you very much. And I'll still go
16 visit.
